

# SENTINEL GFS3 DIVOT TOOL

PART # 34.3GFS3

Polished Metal Finish

Your logo in PVC (Six colors included)

Molded finger recess

Depth limiting feature

## Metal Sentinel Solo GFS3

The new Sentinel line of Divot Tools from GreenFix Golf represent the easiest, most costeffective tools we have ever offered. Sentinel is unique as they offer a slightly longer blade than original GreenFix and allow repairing in a traditional method as well as the more desired "Push" method. Either way your greens will recover much faster than traditional divot tools.

**Dimensions** • 76mm x 22mm

**Weight** • 25 grams

**Ball Marker** • None

## Available Finishes

Black Nickel

Antique Brass

Antique Copper

Matte Nickel

Antique Nickel

## Open Gift Box

## Optional Feature

- Solo Composite Plastic - GFS1

## Gift Set Ideas

## GreenFix Technology

GreenFix Golf has designed a new, simple to use, short tong tool with a patented "stopper" to prevent excessive root damage and allow for much faster healing. The scientifically developed, university tested GreenFix ball mark repair tools work on the green's surface, staying out of the roots to promote remarkably faster healing and smoother putting surfaces.

<p><b>Don't use traditional divot tools</b></p> <p>The long, sharp blades damage the roots, kill the grass and create ugly dead brown spots.</p>	<p><b>Just push...</b></p> <p>the <b>Greenfix Wizard</b> into the outside rim of the ball mark crater. Push the turf back to the center from 12, 3, 6 and 9 o'clock positions. Don't jab, lift or twist the turf. That kills the grass.</p>	<p><b>then tap!</b></p> <p>Finish by tapping the surface flat with the putter head.</p>
