

# TALON DIVOT TOOL

PART # 34.3PT01

PPT "Push" Design

Custom double sided logo

Ultra sleek new shape

Curved and tapered legs

## Double-Sided Ballmarker

**Dimensions** • 67mm x 35mm

**Weight** • 32 grams

**Ball Marker** • 25mm (1 inch) Round Ball Marker – 2 sided logo – 4 colors

## Push Pull (PPT) Technology

Push-Pull Technology (PPT) is a quantum leap forward in divot tool design. Available in two designs. A "Push" design that uses either a 360-degree "Ring" magnet or a "Pull" design where the ball marker is securely enclosed within the outer perimeter opening in the divot tool and held in place by a magnet concealed within the divot tool walls. The ball markers are removed by "Pulling" the ball marker up thru the opening in the top of the Divot Tool.

Push

Pull

## Available Finishes
